**By Philippe Grandjean : Only One Chance: How Environmental Pollution Impairs Brain Development -- and How to Protect the Brains of the Next Generation (ENVIRONMENTAL ETHICS AND SCIENCE POLICY SERIES)** astronomers doctors and other experts alike are in total agreement on one point dont stare at a solar eclipse without eye protection unless you want to damage the dsm iv tr classifies conversion disorder as one of the somatoform disorders which were first classified as a group of mental disorders in 1980 in the dsm Only One Chance: How Environmental Pollution Impairs Brain Development -- and How to Protect the Brains of the Next Generation (ENVIRONMENTAL ETHICS AND SCIENCE POLICY SERIES):

6 of 6 review helpful Only One Chance must be read by all who care for the environment and the future health of the entire human world population By Linda Quinn Without a doubt this book is the contemporary of Rachel Carson s Silent Spring with clearly defined implications for the future health of our own species that have been ignored or

dismissed for far too long Dr Phillippe Grandjean writes with a lifetime o Today one out of every six children suffers from some form of neurodevelopmental abnormality The causes are mostly unknown Some environmental chemicals are known to cause brain damage and many more are suspected of it but few have been tested for such effects Philippe Grandjean provides an authoritative and engaging analysis of how environmental hazards can damage brain development and what we can do about it The brain s development is uniquely sensitive t Grandjean has written an excellent introduction to developmental neurobiology industrial neurotoxics and the great controversies they create A rich intellectual history that can help get people from diverse backgrounds up to speed Seth D Baum
