By Robert Stinson, Peggy Stinson : The Long Dying of Baby Andrew miracle mother 27 and baby daughter saved by quick thinking surgeon after both dying from heart attack in labour michelle santiago 27 suffered a sudden heart andrew russell garfield was born in los angeles california to a british born mother lynn hillman and an american born father richard garfield The Long Dying of Baby Andrew:

1 of 1 review helpful A tragedy on so many levels By Avid Reader I read this book because I have been a neonatal ICU nurse for 25 years I often see treatment of sick babies that should be halted Worse I see parents who want everything done even when it prolongs a baby s suffering and there is very little hope There is also the problem of parents not realizing what they are asking for when they want everything done In The Long Dying of Baby Andrew Atlantic Little Brown 1979 Robert and Peggy Stinson discuss these questions and many others Through a series of journal entries they tell the story of their son Andrew Stinson On December 17 1976 Andrew was born at 24 weeks gestation weighing 1 lb 12 oz Although he thrived in the beginning he began to deteriorate soon after his birth and was transferred to a larger hospital There doctors placed the infant on a ventilator
