0 of 0 review helpful GET IT By Boobiemilkguru Literally every person who is a CLC IBCLC or a possible NICU nurse doctor parent or support giver NEEDS this book It is full of information that is extremely important and backed up with tons of literature I ve bought two one for myself and one for a friend who is a nicu mom This book is going to be the most important book in my arsenal of information for at risk babies This unique text covers the use of banked or stored human milk in the hospital for premature and sick infants and discusses the advantages of human milk feedings

and the elements of hazard or risk introduced by the use of formulas including rationales for the use of both mother's own milk and donor human milk in the NICU This reference also highlights domestic health policies that impact the use of human milk for sick and fragile infants international models
