Care of the High-Risk Neonate, 5e (Klaus and Fanaroff's Care of the High-Risk Neonate):

0 of 0 review helpful I m sure outdated by now By Flying Saucer Not a bad book Not terribly expensive I prefer the workbook by Richard Polin though NOT bad I do miss the NICU Really i do Get this book if you want to do well in the NICU and actually understand whats going on and not just take care of the fetoids Good respiratory and cardiac chapters Between this and the Polin book go with Polin Th The fifth edition of this popular reference provides a sound physiological basis for current neonatal care Expert contributors and a comprehensive question answer section make it a standard in the field About the Author Marshall H Klaus MD Adjunct Professor of Pediatrics University of California at San Francisco San Francisco CA Avroy A Fanaroff MB Rand FRCPE Eliza Henry Barnes Chair in Neonatology Professor of Pediatrics Case Western Reserve
