0 of 1 review helpful One Star By bradley m corsiglia received wrong book The extensively updated 4th Edition of  
this landmark reference represents one of the most comprehensive up to date sources on neonatal neurology It expertly  
synthesizes state of the art knowledge from a variety of disciplines including clinical medicine pathology genetics  
physiology biochemistry and related fields Although the primary focus is on clinical evaluation and management the

book also examines the sophisticated technology that has been revolutionizing About the Author Dr Volpe received his M D degree from the Harvard Medical School completed a Pediatric residency at the Massachusetts General Hospital carried out a postdoctoral research fellowship at the NIH and trained in Pediatric Neurology at the Massac
