From S. Karger : Meeting Micronutrient Requirements for Health and Development: 70th Nestlé Nutrition Institute Workshop, Cebu, March 2011 (Nestlé Nutrition Institute Workshop Series, Vol. 70) Meeting

Micronutrient Requirements for Health and Development: 70th Nestlé Nutrition Institute Workshop, Cebu, March 2011 (Nestlé Nutrition Institute Workshop Series, Vol. 70):

Meeting macro and micronutrient requirements during pregnancy and early childhood is crucial for short and long term health and cognitive function Meta analyses confirm that supplementation or fortification of food with the big four vitamin A iron zinc and iodine is efficacious to reduce the risk of infectious disease and improves growth and cognitive outcome More recently folate and vitamin B12 deficiencies during pregnancy have been shown to be associated w
